

From the Telescope to the Microscope: The Cell
Psalm 139; Ephesians 4:16
Week 7 of 9

1. There are all kinds of shapes in creation (squares, triangles, spheres). Why do you think God chose a double-helix shape for DNA?
2. What most challenged you from this week's sermon? Why?
3. Read Psalm 139:13-16. What does "fearfully and wonderfully made" mean? How does this passage challenge you?
4. What insight does our physical body give us about our spiritual bodies?

How are they similar?

How are they different?

5. What will you commit to this week that will express your praise and thanks for the unique creation you are?
