

From the Telescope to the Microscope: The Cell
Psalm 139; Ephesians 4:16
Week 7 of 9

INTRODUCTION

It all raises 2 questions:

- The question of _____: Is there any evidence for _____ evolution?
- The question of _____ - Is _____ evolution possible?

Every cell in your body has DNA in it.

- What is DNA?
- Think of it as the _____

So, where did the information in DNA come from?

- For the atheist, it had to come from only one place: _____

Let's talk about the cell...

- There are _____ different amino acids in the protein of your body
- Now, add to this the fact that amino acids are connected with a _____

northeast notes

October 30 -31, 2010

From the Telescope to the Microscope: The Cell
Psalm 139; Ephesians 4:16

INTRODUCTION

It all raises 2 questions:

- The question of _____: Is there any evidence for _____ evolution?
- The question of _____ - Is _____ evolution possible?

Every cell in your body has DNA in it.

- What is DNA?
- Think of it as the _____

So, where did the information in DNA come from?

- For the atheist, it had to come from only one place: _____

Let's talk about the cell...

- There are _____ different amino acids in the protein of your body
- Now, add to this the fact that amino acids are connected with a _____

northeast notes

October 30 -31, 2010

- Now, add to that the fact that amino acids come in 2 _____
- Now, to all of this, you have to think about how many _____ there are in a cell?

- The estimates are between _____ and _____

Maybe it appears _____ because it is _____!!!

Thoughts to ponder ...

1. God _____ you just the way He wanted you
2. You are not an _____
3. You are _____
4. You have a _____

CONCLUSION

- Now, add to that the fact that amino acids come in 2 _____
- Now, to all of this, you have to think about how many _____ there are in a cell?

- The estimates are between _____ and _____

Maybe it appears _____ because it is _____!!!

Thoughts to ponder ...

1. God _____ you just the way He wanted you
